

FREE IOS & ANDROID RECORDING APPS FOR YOUR BAND CLASS

VOICE RECORD PRO

By Dayana Networks Ltd

Professional voice recorder, available on the iOS operating system allows users to record voice memos and on-site sounds at unlimited length with configurable quality. Recordings can be exported as M4A, AAC/MP4, MP3 (MEPG) and WAV (PCM) formats. Recordings can be imported and exported into Google Drive, DropBox etc. to be submitted as assignments in your Virtual Classroom if needed.

BANDLAB

By: BandLab Technologies

This application is available on both iOS and Android operating systems. It is an application that allows users to record their music, share it and receive feedback from members of the BandLab community. The app allows students to record and even add musical sounds to their acoustic recording. This could certainly evolve into a Capstone Project or Final Project.

EVERNOTE

By: Evernote

Evernote is free and has many capabilities outside of audio recording. The app is available on iOS and Android. The cloud based storage allows students to quickly access their recordings. The app has a memo portion. Students can take notes while revisiting their recordings. This can translate to a practice log.

VOICE RECORDER - AUDIO RECORD

By: LiveBird Technologies Private Limited

This iOS native recording application is easy for students to use to record and share files with directors who use email, cloud technologies to intercept student assignments.

MUSIC STUDIO LITE

By: Alexander Gross

Music Studio offers a complete music production environment for mobile devices with features and a sound quality previously only known to desktop applications and expensive audio hardware. This application is available via the Android operating system and allows for extreme creative expression, in addition to audio recording and sharing capabilities. This application could be best implemented for a collaborative final project.
